

# Diseases of Crustaceans

- 27 Shrimp disease control: past, present and future** 355  
Timothy W. Flegel, Donald V. Lightner, Chu Fang Lo and Leigh Owens
- 28 Detection by PCR and comparison of sequences of VP28 gene of white spot syndrome virus affecting *Penaeus monodon* in India** 379  
A. Uma, Y. Krishnamohan Reddy, N. Ramanathan, K. Saravanaba and A. Koteeswaran
- 29 Occurrence of multiple viruses in *Penaeus monodon* shrimp ponds and their effect on shrimp production** 389  
Umesha Kanasinakatte Rudrappa, Anirban Chakraborty, Venugopal, M. Nagarajappa, Indrani Karunasagar and Iddya Karunasagar
- 30 Modulation of bio-defense genes in WSSV-infected *Penaeus monodon*** 399  
Wei-Yu Chen, Han-Ching Wang and Chu Fang Lo
- 31 Cluster level adoption of better management practices in shrimp (*Penaeus monodon*) farming: an experience from Andhra Pradesh, India** 409  
P.A. Padiyar, M.J. Phillips, B.V. Bhat, C.V. Mohan, B.G. Ravi, A.B.C.H. Mohan and P. Sai
- 32 Codes of practice and better management: a solution for shrimp health management?** 419  
Flavio Corsin, C.V. Mohan, Arun Padiyar, Koji Yamamoto, Pornlerd Chanratchakool and Michael J. Phillips
- 33 Limiting the impact of shrimp diseases through the implementation of better management practices: the Vietnamese experience** 433  
Pham Van Khang, Flavio Corsin, C.V. Mohan and M.J. Phillips
- 34 Transient expression of a heterologous gene driven by promoters isolated from infectious hypodermal and hematopoietic necrosis virus (IHHNV) of shrimp** 441  
Arun K. Dhar, Nicolai A.M. van Beek, Robert J. Moss, Robert A. Bullis and F. C. Thomas Allnutt
- 35 Molecular typing and antimicrobial susceptibility of *Vibrio parahaemolyticus* strains** 451  
R.P. Maluping, C.R. Lavilla-Pitogo, J.L. Romalde and K. Krovacek
- 36 Pond health management of black tiger shrimp *Penaeus monodon* (Fabricius) using bacterial products** 469  
M.K. Abu Hena, S.M. Sharifuzzaman, O. Hishamuddin, K. Misri and F. Abdullah
